EDUCATION

University of Michigan

Bachelor of Science in Biology, Minor in Business (Pre-Medicine)

Ann Arbor, MI

Aug. 2026 – May 2030

Palos Verdes Peninsula High School

High School Diploma · GPA: 3.8 UW / 4.5 W · SAT: 1530

Rancho Palos Verdes, CA

2022 – 2026

- **Coursework:** 11 APs (Biology, Chemistry, Calculus AB, etc.) & Dual Enrollment (Statistics, Physics 2, Psychology, U.S. History)
- **Activities:** Peninsula Debate (T50), Science NHS, TSA (4th in CA), Philosophy Club Treasurer, Aerospace Club Co-Founder, Science Olympiad

HarvardX & Dual Enrollment

Statistics and R; El Camino College, LACCD

Online / CA

2024 – 2025

EXPERIENCE

Cancer and Blood Specialty Clinic (CBSC)

Research Intern

Long Beach, CA

Jun. 2026 – Present

- Support hematology/oncology research, contributing to clinical case reports and manuscript preparation in an outpatient oncology setting.

Loma Linda University Medical Center

Researcher

Hybrid – CA

Feb. 2025 – Present

- Work under Dr. Mojtaba Akhtari on hematology/oncology projects, contributing to case reports and clinical papers on multiple myeloma and complex malignancies.
- Presented onstage at the MOASC 2026 Oncology Leadership & Research Summit as one of three high school students in attendance.

USC Norris Comprehensive Cancer Center

Assistant Researcher

Los Angeles, CA

Sep. 2025 – Jun. 2026

- Researched under Dr. George Yaghmour, MD, gaining clinical exposure to AML regimens, stem cell transplantation, and multidisciplinary care coordination.
- Co-authored 4 published case reports, including a novel presentation of Blastic Plasmacytoid Dendritic Cell Neoplasm arising with systemic mastocytosis.

South Bay STEM Association

Board Member & Lead Web Developer

Rancho Palos Verdes, CA

Feb. 2025 – May 2026

- Oversaw STEM initiatives, mentored students, and built web platforms supporting education and community outreach.

The New York Academy of Sciences

Student

Remote

Aug. 2025 – Mar. 2026

- Collaborated on international innovation challenges addressing sustainability, energy, and global health through interdisciplinary teamwork.

UCLA Computer Science

Intern

Los Angeles, CA

May 2025 – Feb. 2026

- Contributed to “Hot Potato,” a GPS-based multiplayer mobile game focused on real-world interaction and gameplay logic.

Non-Trivial

Research Fellow

Remote

Feb. 2025 – May 2025

- Selected for a competitive research training program (<10% acceptance); authored an algae-based biohybrid microrobot proposal awarded the Inflection Grant.

Rolling Hills Taekwondo

Instructor

Rolling Hills Estates, CA

Feb. 2021 – Mar. 2023

- Taught taekwondo fundamentals, discipline, and self-defense while managing classes in a structured, fast-paced environment.

RESEARCH PROJECTS

Living Machines: Algae-Based Biohybrid Microrobots for Precision Oncology | *Figshare* Apr. 2025 – Present

- Investigated targeted cancer therapy combining microalgae with synthetic drug-delivery systems to navigate hypoxic tumor environments.
- Outlined a scalable, biocompatible framework for future research and potential clinical application in minimally invasive oncology.

Exploring Fluoxetine's Influence on Behavioral Neuropharmacology

Oct. 2024 – Present

- Conducted a meta-analysis synthesizing studies on serotonin, testosterone, and neuroanatomy to assess the neuropharmacological effects of SSRIs.

PUBLICATIONS

- *Living Machines: The Potential of Algae-Based Biohybrid Microrobots for Precision Oncology*, Figshare, Aug. 2025.
- *Blastic Plasmacytoid Dendritic Cell Neoplasm Arising in a Patient with Systemic Mastocytosis and Associated Hematologic Neoplasm: A Case Report*, 2025.
- *More than a Trace: Manganese Deficiency as an Under-Recognized Cause of Chronic Anemia*, 2025.
- *A Comprehensive Review of Zinc Deficiency-Associated Anemia*, Preprints.org, 2026.
- Co-authored 4 additional case reports in hematology/oncology (USC Norris, 2025–2026).

HONORS & AWARDS

- **Inflection Grant Recipient:** 1 of 5 selected from 350+ applicants for biohybrid microrobot research (Jun. 2025)
- **U.S. Medicine & Disease Olympiad:** Silver Medalist (Top 15% of 1,318 participants, 150/160) (Aug. 2025)
- **MOASC 2026:** Certificate of Presentation, Oncology Leadership & Research Summit (Mar. 2026)
- **TSA:** 4th in California, 1st at PVPHS (Feb. 2025)

CERTIFICATIONS

- Certificate Member, American Federation for Medical Research (2026)
- Non-Trivial Research Foundations Program (2025)
- HarvardX Verified Certificate in Statistics and R (2025)
- 1st Poom Black Belt in Taekwondo
- Adult, Child & Baby First Aid/CPR/AED, American Red Cross (2025 – 2027)

TECHNICAL SKILLS

Research: Clinical Research, Quantitative/Qualitative Analysis, Data Analysis, Manuscript Preparation

Programming: R, Python, JavaScript, HTML/CSS, WordPress

Tools: RStudio, Adobe Creative Suite, Microsoft Office

Languages: English (Native), Spanish (Professional Working)
